INTEGRATED ENERGY COMPANIES

November 17, 2014

Dana Dean
Associate Director Mining
State of Utah Division of Oil, Gas and Mining

Dear Dana,

As the President of Integrated Energy Companies (IEC), I submit this letter of support for the proposed Large Mining Operation Permit the Oil Mining Company TomCo has applied for.

I understand TomCo will be employing a pilot-tested and environmentally-proven technology which will allow them, in the commercial phase of their project to economically process oil shale deposits. Our company supports development of oil shale as long as it is done using "best practices" and the protection of the environment is priority and impacts and waste streams are mitigated.

Our company is involved in the energy production industry with containment and environmental mitigation services. We are pleased to see our state engaging in new energy development efforts and believe TomCo will have a strong commitment to responsible development. I urge you to approve TomCo's Mining permit request.

Respectfully yours,

JT Martin

Dear Dana,

Please see the attached letter of my support for TomCo's permit request for a Large Mining Operation.

Many thanks,
JT
