Re: Receipt of Annual Reports, Lights Mine, S/049/016 and Kell's Mine S/049/017, Utah County, Utah

Dear Mr. Light:

Thank you for your annual reports for the Light Mine and Kell's Mine which were received February 16, 1994. Your note stated that your leases have lapsed and you had received notification that you had met all reclamation requirements. We do not have any record in our files of a letter releasing you from reclamation requirements. We contacted State Lands and they too have no record in their files of releasing you from reclamation requirements. Please send a copy of those notifications to us for our files.

Before the Division can formally release you from reclamation requirements, a site inspection will have to be performed. I would like to inspect your sites sometime in April 1994, weather permitting. I will contact you during the last two weeks of March to coordinate an inspection date and time with you.

Please contact me if you have any questions regarding this letter.

Sincerely,

Anthony A. Gallegos

Anthony A. Gallegos
Reclamation Engineer
