Hi Dave,

I received your letter regarding Tech 007. You seem to have some of the same concerns that the Utah Mining Association has expressed. We plan to meet with them next Tuesday, August 8 at 10 am, here at the DNR building. You or anyone else from UEI who you may want to come are welcome to attend and participate in the conversation. It will be easier to address everyone at once rather than speak to the same questions in separate meetings.

Please let me know if you are unavailable and if a separate meeting is needed.

Thank you ,
Dana
