Dear Mr. Haddock:

Enclosed please find a copy of the revised schedule for the Wellington Stipulation UMC 788.14-(1)-SCL.

Note the date on the schedule. The original was given to Genwal Coal Company/Castle Valley Resources for management approval and was inadvertently sent to the Las Vegas office -- instead of the Division of Oil, Gas & Mining as it was intended. This was brought to my attention just minutes ago. I hope you will accept our apologies for it being two working days late. If there are problems, please call me immediately.

Sincerely,

Patrick D. Collins
