Dear Jim:

Enclosed is our tentative schedule for the review of the eight Federal Lands mines for which OSM has assumed the primary repermitting review role. As you can see, in some cases we have made optimistic assumptions concerning applicant response time, but we expect full cooperation from the companies that will enable us to reach permitting and mine plan approval decisions on schedule.

This schedule is tentative in that we cannot project the full reviews until we have an opportunity to factor in UDOGM's schedule for the mines on which you have primary repermitting responsibilities.

Please review this schedule and let us know how it fits with your needs.

Sincerely,

Allen D. Klein
