RE: Administrative Completeness
Review of Permament Program
Permit Application
(Mine Name)
(ACT/000/000)
Folder Nos. 2 and 3
(County), Utah

Dear (Name):

The Division of Oil, Gas and Mining technical staff, having performed a cursory review of (Company and Mine Name) permanent program permit application and mining and reclamation plan, has determined the mine plan to be administratively complete, in that all areas of concern appear to have been addressed.

A more in-depth Apparent Completeness Review (ACR) has been conducted in order to determine the sufficiency of the application and the Division is proceeding or is anticipating proceeding in the near future with the final Determination of Completeness (DOC) and Technical Analysis (TA) phases of the review process according to an established priority schedule.

No response to this cursory review, nor a publication of completeness, by (Company Name) is required at this time. However, I would appreciate being notified in writing of any significant circumstances that may exist or may possibly develop in the near future which could affect the Division's review priorities that have been established. Your continued cooperation is appreciated. If you have any questions, please don't hesitate to call.

Sincerely,

JAMES W. SMITH, JR.
