Re: Wellington Preparation Plant, ACT/007/012

Dear Mr. Braxton,

Over the past week, Nevada Electric Investment Company and EARTHCO have had to discuss between themselves the status of their agreement. As originally signed between the two companies, our agreement provided for a two year term ending in October 1998. We want to inform you today that we have agreed on an extension of the term for one additional year. EARTHCO will remain the operator, but we will be submitting a change to make Rick Collins the resident agent under the permit, and Rick will be speaking with your staff.

As discussed with the UDOGM representatives during their site visit on August 27, 1998, in the near term we will be focusing on seeking release under the permit for acreage that we contemplate selling to Andalex Resources, Inc.

We appreciate your continued cooperation.

Sincerely,

Richard L. Hinckley
