RE: WASTE DISPOSAL AMENDMENT, PACIFICORP, TRAIL MOUNTAIN MINE, ACT/015/009 AND COTTONWOOD/WILBERG MINE, ACT/015/019, EMERY COUNTY, UTAH #2 #2

Dear Ms. Grubaugh-Littig:

The enclosed information is provided to amend PacifiCorp's Cottonwood/Wilberg and Trail Mountain PAPs. The amendment provides for disposal of Trail Mountain underground development waste and sediment pond cleaning material in the Cottonwood/Wilberg Waste Rock Facility. The revised text pages are to be inserted into the PAPs as follows:

COTTONWOOD/WILBERG PAP, VOLUME 10

Replace Pages 1-8, 1-10, 2-1, 2-2, 2-10.2 and 2-12.1.

Please note that Pages 1-8, 1-10 and 2-10.2 were included in PacifiCorp's submittal (1/13/93) regarding Division Order ACT/015/019-DO-91B. Those pages, with a revision date of 1/8/93, are superseded by this submittal.

TRAIL MOUNTAIN PAP, VOLUME 1

Replace text Pages 3-24, 3-48 and 3-48A.

All replacement pages are identified with a revision date of 2/5/93.

This letter also serves to update my letter of November 24, 1992, regarding Notification of Temporary Cessation of Operations at the Trail Mountain Mine. Underground rehabilitation work is expected to increase in the near future. Surface activities associated with underground rehabilitation will involve materials and underground development waste storage and staging activities. During rehabilitation, it may be necessary to store materials in all available areas of the mine yard, including the haul road area.

This letter constitutes a request for approval to store materials within the haul road area during the rehabilitation period. Placement of materials will be done in such manner as to not impede the approved surface drainage patterns. Surface compliance maintenance activities will continue during the rehabilitation period. Rehabilitation is expected to continue into the third quarter of 1993.

Following Division approval of the enclosed revised text pages, additional copies of the information will be submitted upon request.

Thank you for your assistance in this matter. If you have questions, please call me at 653-2312.

Sincerely,

Val Payne
