NOTES:
1. Mine projections are subject to change depending on conditions encountered in the underground mine workings.
2. Actual mine works are shown as of November 20, 2018.
3. Any mine projections depicted in the fringe areas beyond the existing permit area are speculative and based on future reserve acquisitions.
4. No mining will be conducted in these areas unless these reserves are acquired in the future and permitted according to federal, state, and local permitting requirements.
5. UtahAmerican Energy, Inc. acknowledges that permission to mine within the permit boundary does not imply permission to mine beyond the permit boundary.
6. Longwall panels will be reconfigured as needed to prevent unauthorized subsidence beyond the permit area. Extended reserves are not acquired in the future.
7. Additional control points may be added as mining advances.
