Re: Extension to Respond to Deficiencies in Soldier Canyon Mine Plan, Canyon Fuel Company, Soldier Canyon Mine, ACT/007/018-96A, File #2, Carbon County, Utah

Dear Mr. Barnum:

The Division received your request for an extension of time to respond to deficiencies in the Soldier Canyon Mine Plan on May 27, 1997. Since the majority of the deficiencies deal with a permitting action that has not yet been approved (waste rock disposal site) an extension is considered reasonable. An extension of an additional 30 days is hereby granted. Your response should now be submitted by June 30, 1997.

The Division is anxious to complete this permitting action and get your revised mining and reclamation plan in place. Please make every effort to comply with this new deadline. Thank you for your help and please call if you have any questions.

Sincerely,

Daron R. Haddock
Permit Supervisor
