Re: Seismic Program Near Price, Utah

Dear Mr. Carter:

Enclosed is a map of our planned seismic program. We plan to shoot seven lines as indicated. These locations should be fairly close to the final location. As I mentioned, there is one shothole every 880 feet along each line. As of today, about half of the program has been completed, with total completion estimated early next week.

Should you have any other questions, please let me know.

Sincerely,

A handwritten signature in cursive script that reads "John H. Vreeland". The signature is written in dark ink and is positioned above the typed name.

John H. Vreeland  
Geophysicist
