Re: Water Samples
~~Gordon Creek No.~~ 3/6 Mines
ACT/007/017
Carbon County, Utah #7

Copy Dave for hydro

Dear Pam:

Enclosed are the results of the Gordon Creek No. 3/6 Mine surface water samples. These samples were taken at the request of the Division in association with the Final Bond Release review. The sample locations were as discussed with Mr. Dave Darby:

(1) Above reclaimed minesite;
(2) Inflow to sediment pond;
(3) Coal Canyon below minesite;
(4) Gordon Creek below Coal Canyon.

If you have any questions, or need any further information, please let me know.

Respectfully,

Dan W. Guy
