MEMO TO FILE:

Re: Valley Camp of Utah, Inc.
Belina No. 1
Sec. 19 & 30, T. 13 S., R. 7 E.
Carbon County, Utah

ACT/007/001

Ron Daniels and I met with Mr. Bob Steele at his office on June 24th to inquire as to Valley Camp's progress toward opening the above described mine. Mr. Robert J. Steele, Vice President, stated that a firm market is lacking but he was optimistic about future financing. He also indicated that an addendum to the reclamation plan was in the mail.

Ron and I visited the mine to find no work has been done since last fall. The pads have been constructed and drainage by-pass at the foot of the slope has been provided for. The road will need some work before it can handle haul truck traffic.
