Rich,

As a follow up to our previous phone conversation regarding the review of the Deer Creek Waste Rock bond submitted with the new application. It is the Division that determines the total minimum required reclamation bond amount. Upon review of your sheets I found a couple errors. -The Division utilizes the RS Means bare unit cost
-OSM has determined that all indirect costs will sum to 26.8%
-Division escalation rate for 2015 is 1.2%
-RS reference number 31-23-23.20 0014 should be 31-23-23.20 1014
-RS reference number 31-23-23.15-5010 should be 31-23-23.15 5060
-RS reference number 31-14-13.23 0700 should be 31 14 13.23 1420
-RS reference number 31 21 23.14 440 should be 31 23 23.14 4440
-Revegetation must include a 25% reseeding cost

Attached are the Division sheets with all of the above corrections made. As we discussed. Please review and let me know if you agree with the bond assement.
