FILE: Revisions to Aberdeen Submittals

Pursuant to our meeting of March 23, 1988, attached please find the following: four additional complete copies of the Aberdeen Proposal, including the material requested by James Leatherwood and also including the revised Plate 5 depicting the section lines as requested by Randy Harding. Also attached are six complete copies of this same material (Leatherwood, Harding) to be inserted into the copies of the Aberdeen Proposal already in your possession. Also attached are two complete copies of this same material to be inserted into the two complete MRP's already in your possession. These two copies of the text have the pages numbered for easy insertion. Included with these two copies is the appropriate page from the Table of Contents which also needs to be exchanged. The old Plate 5's should be discarded.

Thank you.
