To: Pam Litti

Subject: Proposed Exploration Tract & Application Status ?

Pages (Including Cover): 3

Date: April 7 95

Fax No.:

Confirmation:(303)660-9368

Comments: Pam: Note ~~two~~ three holes lie North of permit area and on private surface - No problem with them.

The question regards PRP-4 which lies in NE of Section 17. It is on Fed Lease on state Surface and inside the permit boundary. Do we need to submit a seperate application for this hole? Please advise if we have to treat this hole differently than the others.

Thanks Greg
