REVIEW OF PERMIT, PERFORMANCE STANDARDS & PERMIT CONDITION REQUIREMENTS

Instructions

1. Substantiate the elements on this inspection by checking the appropriate performance standard.
   a. For complete inspections provide narrative justification for any elements not fully inspected unless element is not appropriate to the site, in which case check N/A.
   b. For partial inspections check only the elements evaluated.
2. Document any noncompliance situation by referencing the NOV issued at the appropriate performance standard listed below.
3. Reference any narratives written in conjunction with this inspection at the appropriate performance standard listed below.
4. Provide a brief status report for all pending enforcement actions, permit conditions, Division Orders, and amendments.

INSPECTION REPORT
(Continuation sheet)

PERMIT NUMBER: **ACT/041/002** DATE OF INSPECTION: 12/21/94

(Comments are Numbered to Correspond with Topics Listed Above)

1. PERMITS, CHANGE, TRANSFER, RENEWAL, SALE

The permittee is nearly ready to submit a permit amendment which may reclassify several alternate sediment control areas as small area exemptions, per Mike Davis. It is the permittee's intent to wait until the final Division directive is out covering ASCA'S and SAE'S before the submittal is made.

The status of the permit which is on file at the Sevier County Court House in Richfield, Utah was discussed with Mr. Wes Sorensen, P. E. and Mike Davis. Mr. Sorensen said he was not certain when the permit on file was last updated, but that he would look into it. It was suggested that SUFCO take the initiative to regularly update this plan and keep all information current.

9. PROTECTION OF FISH, WILDLIFE AND RELATED ENVIRONMENTAL VALUES

During the field inspection, a diesel fuel spill (1-2 gallons) was observed on the east side of the main warehouse/shop building. The permittee cleaned up the contaminated soil and properly disposed of it during the inspection.

Note: This inspection report does not constitute an affidavit of compliance with the regulatory program of the Division of Oil, Gas , and Mining.
