Re: Post Mining Land Use
Sec. 4, T. 14S., R 7E

Dear Mr. Daniels,

As a matter of record with the regulatory authority, I, Jack Otani, a resident of Clear Creek, Utah and the surface land owner of the area to be disturbed by the mining activity of the Blazon Company, as described in the mining permit application, do hereby state my desires.

1. The access road and drainage facilities remain intact.
2. The graded surface area remain as proposed in the portal and load-out zones. The improvements following mining use to be as follows:
   a. Portals properly sealed and covered with suitable material at a stable slope angle.
   b. The graded areas, other than roads, be prepared eith top soil or other substitutes to promote growth of grasses and vegetation of my own selection.
3. All sewer disposal systems to remain intact.
4. Sediment ponds and other extraneous structures to be removed or leveled for other construction.

It is my intention to develope the area as summer home locations when mining operations are completed.

Respectfully,

Jack Otani
