Mr. Smith:

Re: Mulching Practices, Blazon #1 Mine, ACT/007/021, Folder No. 3 & 14 Carbon County, Utah

As discussed on the phone with you and Mr. Conrad Parrish, the Division hereby approves the use of the green polypropylene netting as a substitute for nylon netting as described and approved in your Final Closure and Reclamation Plan. It is recommended that this netting be stapled at 2' to 3' centers.

Should you have any questions, please don't hesitate to call.

Sincerely,

Lynn Kunzler
Reclamation Biologist
