July 26, 1988

TO; Sue Linner, Permit Supervisor

FROM: James Leatherwood, Reclamation Soils Specialist

Re: Permit Modification Requirements, Summit Coal Company, Boyer Mine, ACT/043/008, Folder #2, Summit County, Utah

The proposed modification to the Boyer Mine, received July 15, 1988, has been reviewed. The operator commits to contemporaneously reclaim the powder magazine area and the small area, that was disturbed to seal an abandoned mine portal, by the fall of 1988. The operator should also commit to reseed the east aspect of the topsoil stockpile adjacent to the haul road, as requested in the July inspection report, concurrently with the other interim reclamation projects.

Recommendation

The operator must commit to reseed the east aspect of the topsoil stockpile adjacent to the haul road concurrently with the other interim reclamation projects scheduled for fall of 1988.
