Dear Mr. Guy:

RE: MRP Amendment, Operator Request to Extend Perimeter of Refuse Disposal Area #2, Beaver Creek Coal Company, C. V. Spur, ACT/007/022, #3 and #4, Carbon County, Utah

The application for Mining and Reclamation Plan (MRP) permit amendment plans submitted by Beaver Creek Coal Company on October 10, 1985 have been reviewed by the Division.

The Company must address several aspects of the plan before final approval can be granted by the Division.

1. The proposed graded area adjacent to sediment pond number 5 must have a configuration capable of directing runoff to the pond in a controlled manner. The inlet structure(s) must be lined with riprap.

2. The integrity of the existing inlet and outlet channels of pond five must be maintained.

Please provide the Division with at least eight (8) copies of site-specific plans and cross-sectional drawings addressing the above concerns by November 10, 1985.

Thank you for your cooperation in this matter. Please contact me or Dave Wham of the technical staff should you have any questions.

Sincerely,

D. Wayne Hedberg
