☐ **Please check if any of the above information has changed since previous year.**

II. *Mining and Reclamation*

1. Was there any mine related activity during the past year? Yes ☒ No ☐
2. If no - what was the last year of activity? _____
3. If yes - how much ore or mineral was mined? Approx. 32.51 acre feet of Raw Brine

4. Briefly describe the type of work performed, volume of material moved, and any new or additional surface disturbances that occurred during the past year.

Minor pond work, no additional surface disturbance

5. How much **additional acreage** was disturbed during the past year? 0

6. How much acreage was **reclaimed** during the past year? 0

7. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

Although it was not our desire, the lake itself effectively reclaimed most of our canal that runs south from our ponds to the low mark of the lake. Most of this will have to be redug as the lake continues to drop.

8. What is the **total disturbed acreage of entire project** at years end? 24 acres

9. Briefly summarize any mining and/or reclamation plans for the upcoming year.

Re-dig the canal if the lake level drops. We plan to add 4-6 additional acres of ponds. (This is the same that we reported in the 1988+99 report. We have not done this work yet, but hope to get to it this year.)

NOTE: Section III., "Additional Information" applies only to **large mining operations**.

III. *Additional Information*

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.

2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

IV. *Signature Requirement*

I hereby certify that the foregoing is true and correct.
