☐ **Please check if any of the above information has changed since previous year.**

II. Mining and Reclamation

1. Was the mine active during the past year? Yes ☒ No ☐
2. If active, how much ore or mineral was mined? 18 Tons

3. How much additional acreage was disturbed during the past year? None

4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

X

5. How much acreage was reclaimed during the past year? None

6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

Removed stone from solid rock ledges in present quarry area — no dirt soil available for reclamation.

7. What is the total disturbed acreage at years end? Under 5 acres

8. Briefly summarize any mining and/or reclamation plans for the upcoming year.

If we quarry where any soil is present, we will place it in a separate pile for later reclamation use — There is very little soil anywhere in the quarry area that can be separated from stone.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. Additional Information

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.

2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

IV. Signature Requirement

I hereby certify that the foregoing is true and correct.
