RE: August 7, 1980 Violations

Dear Mr. Whiteside:

On August 7, 1980, Joe Helfrich, Mary Kay Stein and Wayne Hedberg from the Division visited Valley Camp of Utah, Inc. for the purpose of terminating the topsoil violation issued during a joint State and federal inspection on June 23, 1980. Malcom Dye and Bob Crawford of the Valley Camp facility accompanied Division members to the foundation drill hole site. It was noted that Mr. Crawford had done an excellent job of reclaiming the foundation drill hole area and the road leading to the area. Seeding of the disturbed area was to be done this fall. Eileen Doherty has been informed that this violation should be terminated by the Office of Surface Mining as well as the Division. Mr. Dye and Mr. Crawford accompanied members of the Division to the #2 sediment pond at the Utah #2 Mine where the attached violations were issued. In reference to the vertical highwalls and failing slopes of the #2 sediment pond, the Division hereby directs Valley Camp of Utah, Inc. to implement compliance measures as described under Section 817.46(m) of the Permanent Regulatory Program. Implementation to be completed no later than 8:00 a.m., Monday, September 22, 1980.

If you have any questions concerning termination of the topsoil violation, violations issued at the Utah #2 Mine site and the Division Directive concerning compliance measures of the #2 sediment pond, please give me a call.

Sincerely,

JOSEPH C. HELFRICH
RECLAMATION SOILS SPECIALIST
