NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1987, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" means mining operations which disturb five or less surface acres at any given time.

* * * * * * * * *

I. GENERAL INFORMATION (Rule R647-3-104)

1. Name of Mine: STRAWBERRY RIVER

2. Name of Operator/Applicant: ROCK-IT STONE WORKS
Company (✓) Corporation ( ) Partnership ( ) Individual ( )

3. Permanent Address: 375 S. 900 E
City: DUCHESNE State: UT Zip Code: 84021
Telephone Number: (435) 738-2514 Fax: 435 738-8824

4. Ownership of Land Surface:

Private (Fee) ☒ Public Domain (BLM) ☐ National Forest (USFS) ☐
State Trust Land/School Sections ☐ State Sovereign Lands ☐
Other (please describe): _____

Name BOB PINNER Address 801 573-5955
Name _____ Address _____
Name _____ Address _____
Name _____ Address _____

RECEIVED
APR 15 2002
DIVISION OF
OIL, GAS AND MINING

5. Ownership of Minerals:

Private (Fee) ☒ Public Domain (BLM) ☐ National Forest (USFS) ☐
State Trust Land/School Sections ☐ State Sovereign Lands ☐
Other (please describe):_____

Name BOB BUNSER Address PARK CITY
Name_____ Address_____
Name_____ Address_____
Name_____ Address_____

Utah Mining Claim Number(s):_____

Utah State Lease Number(s):_____

Name of Lessee(s)_____

6. Have the above surface and mineral owners been notified in writing?
Yes X No _____

If no, why not?_____

Please be advised that if State Trust Lands are involved, notification to the Division of Oil, Gas and Mining alone does not satisfy the notification requirements of Mineral Leases upon State Trust Lands. Exploration or mining activity on State Trust Lands requires a minimum of 60 days notice to the Trust Lands Administration ***prior*** *to commencing any activities. Please contact the School Institutional Trust Lands Administration (SITLA) at (801) 538-5508 for notification requirements.*

7. Does the operator have legal right to enter and conduct mining operations on the land covered by this notice? Yes X No _____

II. PROJECT LOCATION & MAP (Rule R647-3-105)

1. Project Location (legal description):

County(ies): DUCHESNE

NW COR 1/4, of SE 1/4, of _____ 1/4: Section: 16 Township: 4S Range: 7W USM
_____ 1/4, of _____ 1/4, of _____ 1/4: Section: _____ Township: _____ Range: _____
_____ 1/4, of _____ 1/4, of _____ 1/4: Section: _____ Township: _____ Range: _____

UTM East _____ (if known) UTM North _____ (If known)

Name of Quad Map for Location _____

2. A topographic base map showing the location of the proposed small mining operation must be submitted with this notice. A USGS 7.5 minute series map is preferred. The areas to be disturbed should be plotted in sufficient detail so that they can be located on the ground. It is recommended that the operator also photo document, plot and label any pre-existing disturbances in the immediate vicinity that he is not responsible for.

3. The proposed (5 acre or less) disturbed area boundary (including access/haul roads) **must** be marked in the field ON THE GROUND with metal T-Posts (or with some other marker of equal effectiveness). Markers must be appropriately spaced so that the next marker in either direction is clearly visible with the naked eye.

III. OPERATION PLAN (Rule R647-3-106)

1. Type of mining: Surface ☒ Underground ☒

2. Mineral(s) to be mined: ROCK

3. Will any water, liquid chemicals, reagents, or other solutions be used, produced or discharged as part of the mining or milling process?
Yes ☐ No ☒ If yes, please describe (add extra pages if needed) _____

4. Provide a brief description of the proposed mining operation and onsite processing facilities (add extra pages if necessary). BLASTING AND OR EXCAVATION EQUIPMENT USED TO DISLODGE STONE. STONE TO BE SPLIT DOWN TO "WALL STONE" SIZES AND PACKAGED FOR TRANSPORT.

5. ☐ New Road(s): Length 100 (ft) Width 20 (ft)

6. ☐ Improved Road(s): Length _____ (ft) Width _____ (ft)

7. Total project surface acreage to be disturbed: NO MORE THAN 3 AT ONE TIME (acres)

8. Proposed startup date of project (month, year) 4/25/02

9. Proposed completion date of project, if known (month, year) _____

IV. OPERATION AND RECLAMATION PRACTICES (Rule R647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining:

1. *Keep the mining operation in a safe, clean, and environmentally stable condition.*
2. *Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.*
3. *Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.*
4. *Construct berms, fences, or barriers, when needed, above highwalls and excavations.*
5. *Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.*

6. *Remove all waste or debris from stream channels.*

7. *Dispose of any trash, scrap metal, wood, machinery, and buildings.*

8. *Conduct mining activities so as to minimize erosion and control sediment.*

9. *Reclaim all roads that are not part of a permanent transportation system.*

10. *Stockpile topsoil and suitable overburden prior to mining.*

11. *Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.*

12. *Properly prepare seedbed to a depth of six inches by ripping, discing, or harrowing. Leave the surface rough.*

13. *Reseed disturbed areas with adaptable species. (The Division recommends a mixture of species of grass, forb, and browse seed, and will provide a specific species list if requested.)*

14. *Plant the seed with a rangeland or farm drill, or if broadcast seeded, harrow or rake the seed 1/4-1/2 inch into the soil - fall is the preferred time to seed.*

V. VARIANCE REQUEST (Rule R647-3-110)

Yes ☒ No ☐

Any planned deviations from Rules R647-3-107, Operation Practices, R647-3-108, Hole Plugging Requirements, or R647-3-109, Reclamation Practices, as summarized above, should be identified below and justification given for the variance request(s).

Item Number	Variance Request Justification
10	VERY LITTLE SOIL - VERTICAL CLIFF W/NO OVERBURDEN
11	ORIGINAL CONTOUR IS FLAT GROUND W/VERTICAL CLIFF WALL ABOVE.

VI. PERMIT FEE [Mined Land Reclamation Act 40-8-7(l)]

The Utah Mined Land Reclamation Act of 1975 [40-8-7 (l)] provides the authority for the assessment of permitting fees. Commencing with the 1998 fiscal year (July 1 - June 30), permit fees are assessed to new and existing notices of intention and annually thereafter, until the project disturbances are successfully reclaimed by the operator and released by the Division.

Small Mining Notices require a $100.00 fee which must accompany this application or it cannot be processed by the Division.

VII. SIGNATURE REQUIREMENT

I hereby commit to conduct mining operations and to reclaim the aforementioned small mine as required by the Utah Mined Land Reclamation Act (40-8) and the rules as specified by the Board of Oil, Gas and Mining.

Signature of Operator/Applicant: Travis Clayburn

Name (typed or printed): TRAVIS CLAYBURN

Title/Position (if applicable):

Date: 4/9/02

ATTN:
PAUL
BAKER

NOTE:

PAUL,

PLEASE USE THE G.P.S. MAP YOU CREATED, AS THE SITE HASN'T CHANGED TO DATE AS FAR AS DISTURBED AREA IS CONCERNED.

THANKS
SHANNON
