INSPECTION REPORT COMMENTS

Permit No. Act 007/022

Inspection Date 6/4/96

Please number comments to correspond with topics on previous page.

Was advised that the permittee is considering submitting an amendment for a short segment of road adjacent to the recently installed truck dump.

Support Facilities: The recent approved amendment on beltline and truck dump is operational, and the followup documents after construction have been approved and returned to the permittee. This has improved the coal movement.
