INSPECTION REPORT COMMENTS

Permit No. Act 007/022

Inspection Date July 2, 1997

Please number comments to correspond with topics on previous page.

General Comments. A complete inspection was completed on July 2, 1997. The inspection included a review of the Savage Coal Terminal records pertaining to and required under the Utah Coal Rules

Records

- Permit Amendments. Primary road amendment Act 007/022-97A was approved by the Division on July 1, 1997. Mr. Guy advised me he had a contractor show me trap and a stand order issued by Savage this morning.
- Permits In Force Include The following
  - ▲ DOGM permit expires 8/7/99
  - ▲ MSHA permit on the refuse pile
  - ▲ DEQ
    - UPDES permit expires 4/30/98
    - Air Quality Order
  - ▲ Surety bond on file for $2,728,178.00
  - ▲ Liability Insurance continues to have two defects
    - No explosive coverage
    - Need language change on the cancellation ie. eliminate the word "endeavor.

INSPECTION REPORT COMMENTS

Permit No. Act 007/022

Inspection Date July 2, 1997.

Please number comments to correspond with topics on previous page.

These corrections have not been finalized based on the current permittees records. However, Mr. Boyd, Manager has been in contact with Patti Bowman, phone # 539-7400 on the needed changes.

- SPCC plans on file and dated January 1993
- An outstanding NOV 97-26-2-1 is currently in force and the abatement date is July 18, 1997. The NOV concerns a portable truck dump and stacking conveyor
- Impoundment Inspections Included and Covered Six Impoundments
  - Annual Inspection 12/17/96
  - Quarterly 1/6/97 6/26/97
- Refuse Pile
  - Quarterly 3/21/97, 6/26/97
- Whistle Blowing records on file
- Designs, Certified Maps On File In The MRP.
- Roads have been classified as required under the coal rules, and information on file in the MRP.

Field.

• Diversions. A diversion on the north side had recently been graded. The gabbions to protect the diversions from erosion appear to be effective.

A diversion on the south side had been recently maintained by the permittee. The maintenance work concerned placing rock above and contiguous to the gabbion. This diversion lies south of the refuse pile north of the railroad tracks and runoff reports to sediment pond #5.

• Sediment Ponds. All five sediment ponds were observed, all contained runoff and none were discharging.

• Roads. Upgrading an ancillary road to a primary road was approved by the Division on 7/1/97. The permittee had not started the work on 7/2/97; however Mr. Guy advised me that the contract had been awarded.
