DIVISION OF
OIL, GAS & MINING

Mr. Ron Daniels, Deputy Director
Department of Natural Resources
Division of Oil, Gas, & Mining
1588 West North Temple
Salt Lake City, Ut. 84116

Dear Mr. Daniels,

By letter of February 9, and hand delivery on February 12, 1981, Valley Camp of Utah, Inc. filed with the Division of Oil, Gas, & Mining and transmitted to the Office of Surface Mining its permit application and mine plan for Belina Mine at Clear Creek, Carbon County, Utah, under the State and Federal Surface Mine Reclamation Act Permanent Regulatory Program. This permit application and mine plan covered the on-going previously approved under State regulation and 30 CFR 211 Belina No.1 Mine, and the Belina No.2 Mine, not previously approved.

Initial underground development of the Belina No.2 Mine is proposed in coal of The Lower O'Connor Seam owned by Carbon County under lease to Valley Camp of Utah, Inc. No additional surface development or activity is required by the initial underground development of Belina No.2 other than that already developed and approved for the Belina No.1 Mine.

We request regulatory approval to commence development and production of coal from Belina No.2 Mine as set out on the attached mine projection, pending approval of our overall permit and mine plan involving Federal coal leases. Initial development and the approval requested is to be confined to mining of Carbon County owned coal with no involvement or extraction of Federal coal.

This requested approval is necessary to facilitate meeting sales requirements, and prompt consideration would be appreciated. We would be pleased to meet with you for further discussion or provide additional information.

Yours very truly,

W.H. Haynes, Jr.
W.H. Haynes, Jr.
