(August 1988)

(For BLM Use) Serial No. UTU-78038

NOTICE
OR
PLAN OF OPERATIONS
(For Operations Proposed Under the 43 CFR 3809 Regulations)

Instructions: Circle "Notice" (above) if proposed mining activity within the project area will disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if disturbance will exceed five acres during the calendar year or if operations are within one of the specially designated areas described in 43 CFR 3809.1-4(b). Complete the form in as much detail as possible. Additional sheets may be used if necessary. Use maps or sketches where appropriate. A review of the 43 CFR 3809 regulations should be conducted prior to completion of this form.

Operator Information:

Name	Address	Telephone
T.A. Nielson Joseph O. Kingston Carl E. Kingston	W.J. Owen Bill W. Stoddard George K. Fadel,	3212 South State St. Salt Lake City, Utah, 84115	(801) 486-1458

Claimant Information (If different than operator):

Name	Address	Telephone
Same		

Claim Information (Claim names, circle claim types (Lode, Placer, Mill Site, Tunnel), BLM Serial No.):

UMC 98432-98436 Burnham Placer Claim and Von Elm Placer Claim.

RECEIVED
AUG 03 1993
DIVISION OF
OIL GAS & MINING

Location of Proposed Activity (i.e. Township, Range, Section):

East ½ of section 3, Township 23 South, Range 6 East, Salt Lake Base and Meridian, Emery County, Utah.

Describe Existing Disturbance and Structures or Indicate on Maps or Sketches (Mine and Mill Facilities, Workings, Tailings, Dump Areas, etc. It may be to your advantage to document existing disturbance with photographs):

See map

Proposed Operations: Describe the entire proposed operation, including all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.) List all mechanized earth-moving equipment to be used during the operation and state if explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing the locations and size of areas where surface disturbances are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 acre = 43,560 sq. ft.)

We would like to do the assessment work on our claims. This will include the grading of existing roads as well as removing some overhanging brows at points "c" and "d" as shown on the map. The brow at point "c" is approx. 12 feet by 18 feet. The brow at point "d" is approx. 10 feet by 40 feet. The material at "c" will be removed and placed at point "b" on the map, which can be used later when reclamation is done. The bulk of material at "d" will be used to build up the existing road, at that point, from two to four feet. The excess material will be placed at point "b".

Some powder will b[illegible]used to shoot the brows o[illegible]. The powder is Ireco-0081, Type "A".

Equipment used will be a front end loader, small track dozer, air compressor, and jack hammer.

The amount of disturbance, including grading of present road, will be less than ½ acre.

There will be a small amount of mineral removed, one to five ton.

Period of Operation: From Present To Unknown

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of nonoperation is anticipated.

I will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Signature of Operator: _____ Date _____

NOTICE TO OPERATORS:

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 calendar days before commencing operations. Receipt of a notice will be acknowledged promptly. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a submitted plan and will notify the operator of the status of the plan within 30 days of receipt of the plan.

2. Submittal of a notice or approval of a plan of operations does not constitute certification of ownership to any person named as owner herein, nor does it constitute recognition of the validity of any mining claims named herein.

3. Generally, information that could be considered proprietary is not necessary to fulfill notice or plan of operations requirements. However, information and data submitted and specifically identified by the operator as containing trade secrets or confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately and will not be available for public inspection.

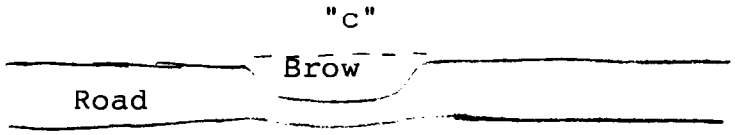
4. Failure of operator to file a notice or a plan of operations, as required by the 43 CFR 3809 regulations, will subject the operator to being served a notice of noncompliance or enjoined from the continuation of such operations by a court order until such time as a notice or plan is filed with the BLM.

5. The completed notice or plan of operations should be filed with the appropriate resource area office. Their addresses are as follows:

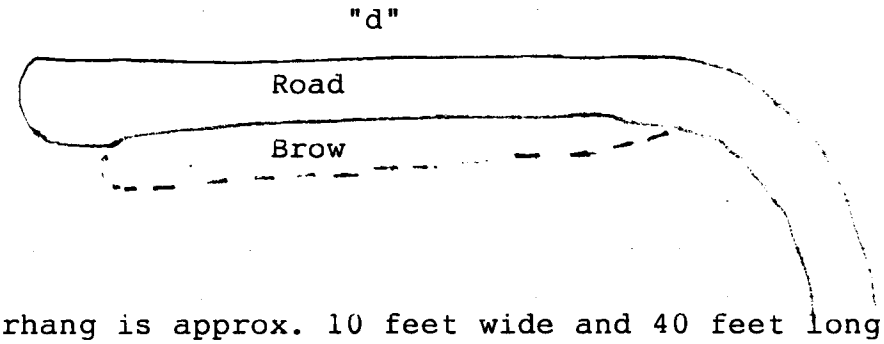
San Rafael & Price River Resource Areas 900 North 700 East Price, Utah 84501	Grand Resource Area P. O. Box M Moab, Utah 84532	San Juan Resource Area 435 North Main Street Monticello, Utah 84535

LEGEND

Blue	existing access road on State land
Green	existing access road on B.L.M. land
Brown	existing road along face of mineral deposits
Red	proposed road extension on B.L.M. land along face of mineral deposits



The brow or overhang is approx. 12 feet wide and 18 feet long. This point "c" is about 1250 feet from point "a". on the map.



The brow or overhang is approx. 10 feet wide and 40 feet long. Point "d" is approx. 400 feet from point "c"on map.

This is only a sketch drawing and is not drawn to scale. It is only to show the size of the on-the-ground disturbances.

Point "a" on the map is the start of the access road. From a to b is 850 feet, b to c 400 feet, c to d 400 feet or 1650 feet total. These are only approximate distances.
