Salt Lake City, Utah 84116

RE: Belina No. 2 Approval
Stipulation No. 6-81-9

Dear Mr. Smith:

I received a letter from Mr. Thomas N. Tetting on October 19, 1981, wherein he stated that the Division was awaiting compliance with Stipulation Nos. 6-81-4 and 6-81-9 to fulfill final terms of the Belina No. 2 approval. I agree that Stipulation No. 6-81-4, as of this date, has not been addressed.

However, the leak in the outlet pipe mentioned in Stipulation No. 6-81-9 was repaired on July 8, 1981, and again on August 7, 1981. Notification of such repairs was given to Mr. Tom Portle of your office by telephone on August 14, 1981, and as of this date, the discharge pipe has not been examined for abatement or compliance accreditation.

A Notice of Violation (No. 81-3-11-2) was issued to Valley Camp of Utah by Mr. Portle on July 9, 1981, and the abatement deadline was, at that time, set at August 8, 1981. The second repair attempt was completed on August 7 and the NOV was thereby abated within the designated time period.

It is, therefore, my understanding that of the original ten stipulations, nine have been satisfied.

I hope this letter will arrest any further expectations pertaining to Stipulation No. 6-81-9.

Mr. James W. Smith, Jr.
