RE: U. S. Geological Survey
211 Regulations
Cross-Reference Index

Dear Mr. Whiteside:

The Division of Oil, Gas and Mining has recently received a request from the U. S. Geological Survey (USGS) for a cross-reference index of the 211 regulations and the Utah State Reclamation Program to be included in each permit application. Through such a cross-reference index, the coal mine permit reviews of the USGS may be expedited.

Since much of the 211 information may already be included in your mining and reclamation plan, and other subsequent modifications, it is suggested that you identify where and in which submissions the information may be found. A format for the cross-reference has been enclosed for your convenience.

If this material has been submitted to the USGS but not the Office of Surface Mining or Division of Oil, Gas and Mining, then this information should be duplicated for each.

Please contact Sally Kefer of my staff if you have any questions concerning this request.

Sincerely,

JAMES W. SMITH, JR.
