RE: Sunnyside Cogeneration Associates ACT/007/035
Request for extension - Violation N93-32-5-2 No 1 of 2
Acid-forming material on the Old Coarse Refuse Road
Project No. EC450593

ACT/007/035 #5
Copy Joe

Dear Joe,

SCA requests an extension to allow further progress of the Final Reclamation of the Old Coarse Refuse Road. SCA has already received bids and awarded a contract for this project as approved by Randy Harden in a meeting between SCA and DOGM on April 25, 1994. A copy of the award is attached. The contractor should be able to begin installing silt fence this week. Erosion Control Fencing was approved by the Division as submitted on January 26, 1994.

SCA is currently preparing a submittal responding to the Division findings document dated May 26, 1994. This document was prepared after review of the reclamation plans presented during the April 25, 1994 meeting at the division.

SCA intends to have the acid-forming material removed and/or placed in a controlled manner in time to cover with borrow material and meet the approved seeding window of Fall 1994.

If you have any questions, please feel free to call.

Sincerely,

AEB for
David Pearce
