Re: Division Order ACT/007/035-96A, and Analysis and Findings for Permit Changes Made Under NOV N93-13-2-1, Sunnyside Cogeneration Associates, ACT/007/035, Folders #2 & #5, Carbon County, Utah

Dear Mr. Mattingly:

The Division has completed review of proposed permit changes submitted to the Division in response to abatement requirements of Notice of Violation N93-13-2-1. A copy of the Analysis and Findings, dated June 25, 1996 is attached.

As a result of review and analysis of the proposed permit changes, the Division has found that the proposed changes meet the requirements of the Coal Regulatory Program. In conjunction with the review of the proposed changes to the plan, the Division has also evaluated the bonding requirements and determined that the performance bond for reclamation must be increased to $2,094,000.00. Calculations and the evaluation made in determination of the revised bond amount are included in the attached Analysis and Findings.

In order to comply with the requirements of the Coal Regulatory Program, the Division has ordered that the bond amount be increased. Division Order ACT/007/035-96A is also attached. This Division Order requires the bond to be increased to the above amount by August 1, 1996.

While Frontier Insurance Company provides the current surety bond in the amount of $1,500,000.00, the additional bond may be provided by any means or provider acceptable to Division requirements. Frontier Insurance Company is being copied this notice as part of the Coal Program regulatory requirements.

You may also note that as a result of our meeting on June 10, 1996, the Division has revised the bond amount according to additional information provided in that meeting.

Should you desire to meet further and discuss the bond amount or details for meeting the requirements of the Division Order, please feel free to call.

Sincerely,

James W. Carter, Director
Division of Oil, Gas and Mining
