Subject: Notice of violation issued to Sunnyside Cogeneration Associates
No: N97-26-4-1
MSHA Identification Numbers

Dear Bill:

Hopefully the following meets your requirements in reaching a satisfactory conclusion to the above referenced matter and the Department of Oil, Gas and Mining will now give us a release on the Notice of Violation. We are very anxious to resolve the issue before September 9, 1997, which will be ninety (90) days since the NOV was issued.

We are in receipt of a faxed memo form MSHA listing the assigned MSHA Identification Numbers for the Coarse Refuse Pile, East Slurry Cell, West Slurry Cell and Excess Refuse Pile. This information has been forwarded by MSHA as a courtesy and assistance to Sunnyside Cogeneration Associates in meeting the abatement deadline time of September 9, 1997. The original documentation is to be mailed.

The Identification Numbers will be posted in their respective areas as soon as the appropriate signs can be made.

A copy of the faxed information is being forwarded to you by fax. As soon as we receive the original documentation a copy will also be forwarded to you.

Your cooperation and patience on this matter is appreciated. Please contact me or Rusty Netz with any questions or comments.

Sincerely,
Sunnyside Operations Associates, L. P.

Harold C. Sallas
General Manager
