Clear Creek, Utah
19 May 1982

Mr. Trevor G. Whiteside
Senior Mining Engineer
Valley Camp of Utah, Inc.
Scofield Route
Helper, Utah 84526

Dear Trevor:

Confirming our recent conversation, the town of Clear Creek desires to improve an area in Finn's Canyon for a recreational area for the residents.

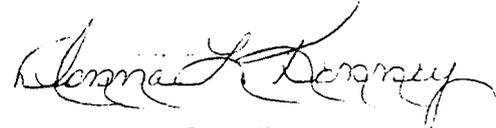

To do this, we propose to fill part of the swampy area immediately west of town. This will require fill material to be hauled into the area that we would grade and compact for use as a ball diamond.

We propose to load the frost sloughage material from around the bathhouse and parking areas at the Belina Mines for this purpose. For this material, we propose to pay 25¢ per cubic yard.

If this is agreeable to you, please so indicate by appropriate notation hereon below, and we will proceed with loading and hauling of this material.

Jack Otani
