FAXED 11/16/93 BG.

Dear Mr. Braxton,

RE: BLACKHAWK PROJECT - PORTAL SEALING

As indicated in my letter of November 4, 1993, the Blackhawk portals have been sealed. The seals were constructed according to the approved MSHA plan dated September 22, 1993. The seals have not been backfilled and will remain as they are until further exploration is initiated or until final mine permitting is completed and the property is brought into production. The portals have been fenced off to prevent unauthorized entry.

If you have further questions, call myself or John Borla at 637-2875.

Respectfully,

Ben Grimes
Environmental Coordinator
