Protection Agency
1860 Lincoln Street
Lincoln Tower Building
Suite 900
Denver, Colorado 80295

Dear Barbara,

In response to your telephone inquiry of August 3, 1982, I am writing this letter to inform you of the timetable concerning the modification to the filter settling pond at the discharge from Belina #1 Mine. The appeal from the Utah Department of Health is on board, but we have not heard from the Division of Oil, Gas & Mining at this time.

The construction of the modification to the filter settling pond should start the week of August 23, 1982, and be finished the week of September 5, 1982, with start-up completed two days after the construction is completed.

I hope this letter answers all the questions you have, as defined by your telephone call; if not, please do not hesitate to call for further clarification.

Edwin B. Foust
Chief Engineer
