INSPECTION MEMO TO COAL FILE:

RE: Utah #2 loadout
Valley Camp of Utah, Inc.
ACT/007/014
Carbon County, Utah

A visit was made to the Utah #2 loadout by Joseph Helfrich, Jean Doutre, and Paul Sjoblom to be acquainted with the operation of a railroad loadout operation.

Ed Sanderson, of Valley Camp conducted a tour of the entire operation beginning at the truck dump and the conveyors taking coal up to the cross conveyor and prep plant. We were able to see the prep plant, the stacker operation and see the loadout facility in operation, and discuss all facets of the system.

JEAN DOUTRE
RECLAMATION OFFICER
