APPLICATION FOR TRANSFER OF NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

Application is hereby made to transfer the permit to commence small mining operations for the Sage Mine project, permit # S/037/0058, currently operated by Colorado Plateau Partners LLC (transferor) to Pinon Ridge Mining LLC (transferee).

As used herein, TRANSFEROR refers to the *current operator*; TRANSFEREE refers to the *proposed new operator*; NOI refers to the Notice of Intention to Commence Small Mining Operations; PERMIT refers to the approved (or accepted) NOI, including the reclamation contract and reclamation surety.

Upon approval of the Application for Transfer:

1. The Transferor agrees to transfer all rights and obligations to operate under the terms of the NOI to the Transferee, The Transferor will not retain any rights to conduct small mining operations within the area covered by the approved NOI.

2. Both parties understand the transfer of the ***NOI is not complete until all the applicable requirements are met,*** including the submittal and Division approval of an appropriate reclamation surety and a reclamation contract.

3. The transferee has read and has a copy of the current NOI.

4. The Transferee has inspected the site and is fully aware of all existing conditions and responsible for compliance with the conditions of the permit and the obligations regardless of the nature of the conditions at the site.

5. Transferee shall conduct large mining operations on lands included in the NOI in accordance with the Utah Mined Land Reclamation Act, (ACT) Sections 40-8-1 et seq., Utah Code Annotated, (2005, as amended), and the rules promulgated under the ACT (R647- et seq., and the approved NOI.

6. The Transferee shall provide a surety in a form and amount approved by the Division to assure reclamation of the lands affected by the mining operations.

The **Transferor** will remain liable for compliance at the mine site until this transfer application is approved.

The signatory below represents that he/she has authority to execute this transfer on behalf of the Transferor, if not a natural person. Statements made in the application are true and correct to the best of my knowledge and belief.

TRANSFEROR:

Colorado Plateau Partners LLC
Operator/Transferor Name

By Harold R. Roberts
Name of Authorized Officer (Typed or Printed)

Executive Vice President + COO
Title of Authorized Officer

August 18, 2014
Officer's Signature Date

NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The information requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1987, and the General Rules as promulgated under the Utah Minerals Regulatory Program (R647). The rules and Act are available online at http://www.rules.utah.gov/publicat/code/r647/r647.htm and http://le.utah.gov/~code/TITLE40/40_08.htm.

Cultural Resources Survey: To fulfill its obligations under Utah Code Annotated 9-8-404, the Division needs cultural resource (archaeology) information. The amount and type of information required will depend on the mine location, the history of previous disturbance, and other factors. Please contact the Division for further information.

A permit fee of $150 must accompany this application (Utah Code Ann. §40-8-7(1)(i)) and is due annually.

"Small Mining Operations" are operations which have a disturbed area of ten or fewer surface acres at any time in unincorporated areas, or five acres or fewer in incorporated areas.

What is the pre-mining land use, i.e. cropland, grazing, wildlife habitat?_Cropland, grazing and wildlife habitat.
What is the postmining land use?_Cropland, grazing and wildlife habitat._____

Please be advised that if State Trust Lands are involved, notification to the Division of Oil, Gas and Mining alone does not satisfy the notification requirements of Mineral Leases upon State Trust Lands. Exploration or mining activity on State Trust Lands requires a minimum of 60 days notice to the Trust Lands Administration ***prior*** *to commencing any activities. Please contact the School Institutional Trust Lands Administration (SITLA) at (801) 538-5508 for notification requirements.*

II. PROJECT LOCATION & MAP (Rule R647-3-105)

1. **Project Location & Map** (legal description):

County(ies): San Juan_____

NE____1/4, of _____1/4, of _____1/4, Section: 34_____Township: 32S____Range: 26E____
SE____1/4, of _____1/4, of _____1/4, Section: 34_____Township: 32S____Range: 26E____
_____1/4, of _____1/4, of _____1/4, Section:_____Township: _____Range: _____

UTM East: 671,084_____(if known) UTM North: 4,202,734_____(If known)

Name of Quad Map for Location: Piute Point (37109-H1)_____

2. **Is the project within an incorporated area?** (___) Yes (_X_) No
   If yes, what is the town or city? _____
3. **Location and Operations maps** must be plotted at a scale to accurately identify locational landmarks and operations details. All maps must include a north arrow, scale, appropriate labels, and title box including the mine name, township, range and section.

   a. The **general location map** must be the scale of a USGS 7.5 minute series map or equivalent (1"=2000') and identify new or existing access roads.

   b. The **operations map** (1"=200' or other scale as determined necessary by the Division) must be labeled and identify:
      i. The area to be disturbed;
      ii. The location of any existing or proposed operations including access roads, drill holes, trenches, pits, shafts, cuts, or other planned activities; and
      iii. Any adjacent previous disturbance for which the operator is not responsible.

      (Contact the Division for a list of consultants and land surveyors for mapping assistance.)

4. The proposed (5 acre or less) disturbed area (including access/haul roads) should be marked ON THE GROUND with metal T-Posts (or with some other marker of equal effectiveness). Markers should be appropriately spaced so that the next marker in either direction is clearly visible with the naked eye.

III. OPERATION PLAN (Rule R647-3-106)

1. **Type of mining:** Surface (___) Underground (_X_)
2. **Mineral(s) to be mined:** Uranium_____
3. **Amount of material** to be extracted, moved, or proposed to be moved: No mining activity planned at this time._____
4. Will any **water, liquid chemicals, reagents, or other solutions** be used, produced or discharged as part of the mining or milling process? Yes (__) No (__) If yes, please describe (add extra pages if needed): _____
   _____
5. Provide a brief **description of the proposed mining operation**, and onsite processing facilities (add extra pages if necessary). Current site activities include limited exploration and baseline data collection. No mining activity is planned at this time. Sage Mine is a small uranium mine with a single mine portal and a stabilized mine waste material pile onsite. Two metal frame and sheeting buildings are on site for use during mine operations. The only access is a narrow, single lane dirt road. A small ventilation borehole & escape hoist is located on top of the mesa and is accessed via a two track dirt road. Three groundwater monitoring wells were drilled under exploration project E/037/0188 and have been rolled into this Small Mine NOI because they will be associated with ongoing environmental monitoring. The site is stabilized for this inactive period. The portal has been backfilled to block underground access.
6. (__) **New Road(s)**: Length _____(ft), Width _____(ft)
7. (__) **Improved Road(s)**: Describe improvements that need to be made to existing roads to access the site, including the Length _____ (ft) and Width _____ (ft) **of new disturbances**.
   _____
   _____
8. Total project surface **acreage to be disturbed**: 4.1_____(acres) PLEASE SPECIFY EXACT ACREAGE *(this will be used to determine surety bond amount – see #VI)*.
9. Proposed **startup date** (month, year): Unknown_____
10. Proposed **completion**, if known (month, year): Unknown_____

IV. OPERATION AND RECLAMATION PRACTICES (Rule R647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover or within practical limits. To accomplish this, the Permittee / Operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining. Please refer to The Practical Guide to Reclamation in Utah, available at::
https://fs.ogm.utah.gov/pub/MINES/Coal_Related/RecMan/Reclamation_Manual.pdf.

1. *Keep the mining operation in a safe, clean, and environmentally stable condition.*
2. *Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.*
3. *Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.*
4. *Construct berms, fences, or barriers, when needed, above highwalls and excavations.*
5. *Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.*
6. *Remove all waste or debris from stream channels.*
7. *Dispose of any trash, scrap metal, wood, machinery, and buildings.*
8. *Conduct mining activities so as to minimize erosion and control sediment.*
9. *Reclaim all roads that are not part of a permanent transportation system.*
10. *Stockpile topsoil and suitable overburden prior to mining.*
11. *Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.*
12. *Properly prepare seedbed to a depth of six inches by pocking, ripping, discing, or harrowing. Leave the surface rough.*
13. *Reseed disturbed areas with adaptable species. (The Division recommends a mixture of species of grass, forb, and browse seed, and will provide a specific species list if requested.)*
14. *Plant the seed with a rangeland or farm drill, or broadcast the seed. Fall is the preferred time to seed.*

V. VARIANCE REQUEST (Rule R647-3-110)

Any variance must be approved writing *in advance* by the Division

Any planned deviations from Rules R647-3-107, Operation Practices, R647-3-108, Hole Plugging Requirements, or R647-3-109, Reclamation Practices, as summarized above (see IV. Operation and Reclamation Practices Item # 1-14), should be identified below listing applicable rule number. Give justification for the variance(s) and alternate methods or measures to be utilized to meet the intent of the rule. Written approval from the Division will be given, if the proposed alternative methods to be used are consistent with the Act.

Are variances being requested? Yes (__) No (_X_)

Variance Requested

_____ _____

Item # Applicable Rule

Justification: _____

_____

Alternate methods or measure to be utilized: _____

_____

_____

Attach additional page(s) if more variances are requested.

VI. SURETY (Utah Code Ann. §40-8-7(1)[c])

A reclamation contract and surety must be provided to and approved by the Division prior to commencement of operations. No surface disturbance is authorized until the surety is posted and approved in writing. The surety may be provided in the form of a certificate of deposit, a letter of credit, a surety bond, or cash. Please contact the Division for further information about submitting the surety. All mining operations are required to furnish and maintain reclamation surety to guarantee that the land affected is reclaimed (Utah Code Ann. §40-8-7(1)[c]).

The reclamation surety amount is based on the nature, extent and duration of operations. The amounts are based on data from current large mine surety and are used as a general guide, along with actual site conditions. Reclamation surety for small mines is reviewed every three (3) or five (5) years and adjusted as necessary for inflation/deflation based upon acceptable Costs Index. **Contact the Division for the dollar amount required for a three (3) or five (5) year period for this project.**

VII. SIGNATURE REQUIREMENT

CERTIFICATION

I state under penalty of perjury under the laws of the state of Utah and the United States of America that:

a. I have read this form and declare the information, statements and/or documentation are true, correct and complete to the best of my knowledge and belief; AND

b. I commit to the reclamation of the aforementioned small mining project as required by the Utah Mined Land Reclamation Act (40-8) and the rules as specified by the Board of Oil, Gas and Mining.

c. **This certification must be signed by:** (1.) an executive officer if the applicant is a corporation; (2.) a partner if applicant is a partnership (general or limited); (3.) the owner if applicant is a sole proprietorship; **or** (4.) the member or manager if applicant is a limited liability company.

RE: Application to Revise a Notice of Intention to Commence Small Mining Operations for the Sage Mine (S/037/0058)

Dear Mr. Baker,

Pinon Ridge Mining LLC (PRM) recently purchased the Sage Mine and associated permits from Colorado Plateau Partners LLC (CPP). Accordingly, we are requesting a permit transfer from CPP to PRM. Enclosed please find an Application for Transfer and Application to Revise a Notice of Intention to Commence Small Mining Operations for the Sage Mine located in San Juan County, Utah. A new bond in the amount of $30,900.00 is also attached, along with a Reclamation Contract form.

I look forward to working with you and your staff as we move forward with exploration and permitting activities at the Sage Mine. Please contact me at 970-864-2125 or Pinonridge.glasier@aol.com if you have any questions or need additional information.

Sincerely,

George E. Glasier

George Glasier
President and CEO
