Memo to Coal File:

RE: Valley Camp of Utah, Inc.
Belina Mine
ACT/007/001
Carbon County, Utah

On August 12, 1982, Lynn Kunzler accompanied Jim Munson of the U.S. Fish and Wildlife Service on a tour of the Valley Camp Properties. Mr. Trevor Whiteside of Valley Camp guided the tour.

The purpose for the tour was to get an on-site evaluation of potential impacts to riparian habitats of proposed activities, especially the overland conveyor.

Impacts will be negligible in as much that individual towers will be "hand set". The conveyor route is on the hillside (usually well above any riparian habitat) and when it does involve riparian areas, it generally crosses them at a near perpendicular angle.
