NOTICE OF PUBLIC [illegible]ING
Blowing Dust and Tracked-[illegible] Dirt Rules
DAQSN-0156-98

The Air Quality Board requests comment on two rules to reduce blowing dust and of dirt from construction and hauling sites onto roads. These provisions are currently found -12. Requirements applicable outside Davis, Salt Lake, Utah and Weber Counties are unchanged to a new R307-205.

Requirements for those four counties are moved R307-309 and are strengthened to prevent dirt from leaving the site of storage, hauling, , construction and demolition activities, and from being tracked onto public roads from tivities. These more stringent provisions are proposed because it is a component of fine te pollution which is detrimental to human health. The mud and dust tracked onto roads is to very fine particles which are inhaled and remain in human lungs. The biggest source of nts to the Division of Air Quality is blowing dust, and local governments also receive nts from their citizens. Wasatch Front Regional Council has requested that this rule be re stringent, and the staff of the Division of Air Quality have worked with WFRC staff and members to draft the provisions, which are similar to those recently put into effect in the and Las Vegas areas. These requirements are already written into the permits for I-15 ction and a number of other sources. A variety of control measures can be used to control l the cost ranges widely.

Public hearings will be held on June 1 at 7 PM in the City Council Chambers, 351 W. treet in Provo, on June 2, at 6 PM at Orchard Elementary School, 205 E. Center Street Salt Lake, on June 3 at 6 PM in Room 101 at the Department of Environmental Quality 168 N. 1950 West in Salt Lake City and on June 9 at 6 PM at the Weber-Morgan Health ffices at 2570 Grant Ave in Ogden.

In compliance with the Americans with Disabilities Act, individuals needing special dations (including auxiliary communicative aids and services) during this hearing should Bureau of Human Resources at 168 North 1950 West, Salt Lake City, or call 536-4413 ree working days before the meeting.

Electronic copies of the rule will be available May 15 at: http://www.rules.state.ut.us. pies of the proposed rule are available at the Division of Air Quality, Davis County e Salt Lake City Main Library, Salt Lake County Library (Whitmore), Provo City Library, liver District Health Department in Logan; the Uintah Basin District Health Department the Central Utah District Health Department in Richfield; the Southeastern District partment in Price; the Southwest District Health Department in Cedar City; the Summit ty Health Department in Coalville; the Tooele County Health Department, Wasatch ealth Department, Salt Lake City/County Health Department, Davis County Health nt, Weber-Morgan District Health Department, City-County Health Department of Utah e comment period closes at 5 p.m. on July 6, 1998. Comments postmarked on or before 8, will be considered. Both written and oral comments will be accepted and considered

Written comments regarding the changes may be mailed directly to:

PUBLIC NOTICE

PR0/002/1 04/1 x 2

WEST RIDGE Resources, Inc., P.O. Box 902, Price, Utah 84501 has filed a complete application with the Division of Oil, Gas and Mining for a permit to conduct underground coal mining and reclamation operations in eastern Carbon County, Utah. The proposed West Ridge Mine would be located in C. Canyon, approximately 6 miles north of East Carbon City, Utah. The proposed permit area is approximately 2,661 acres and delineated on U.S.G.S. 7 1/2 minute topographic maps as follows:

T.14 S, R 13 S
Section 10: NE1/4, N1/2SE1/4, E1/2NW1/4, SE1/4 SE1/4
Section 11: All
Section 12: S1/2SW1/4, NW1/4SW1/4
Section 13: W1/2, SE1/4, S1/2NE1/4, NW1/4NE1/4
Section 14: E1/2, N1/2NW1/4, SE1/4NW1/4
Section 15: NE1/4NE1/4
Section 16: NE1/4SE1/4 (9.6 acres)
Section 24: N1/2SE1/4, NE1/2, NE1/4SW1/4

A portion of the mine facility area would be located within 100 feet of a Carbon County public road. There are no plans to relocate or close the public road. The mine facility would not hinder public travel on the public roadway.

An experimental practice with regard to topsoil removal and storage is being proposed on approximately 4.75 acres of the total 29 acre mine facility area. The regulatory provision for which the variance is being requested is R645-301-232. Details of the proposal are included in the Permit Application Package currently on file with DOGM.

Following mining activities, all surface facilities would be removed and the area regraded to approximate original contour. The disturbed surface area would be seeded and mulched to promote successful revegetation. Postmining land use would be the same as currently, exists today, that being wildlife habitat, grazing and limited recreational activities.

A copy of the application is available for public inspection at the following locations:

Division of Oil, Gas and Mining
1594 W. North Temple, Suite 1210
Salt Lake City, Utah 84114-5801

Carbon County Courthouse

enough to

The number of U.S. residents old enough to vote in the November 1998 election will rise to 200.9 million, 4 million more than in November 1996, according to a report released today by the Commerce Department's Census Bureau.

The embargoed tabulations can be accessed at http://www.census.gov/demd/www/embargo/embargo.html. After the release time, a copy of the report, Projections of the Voting-Age Population, for States: November 1998, P25-1132, will be on the Internet at http://www.census.gov/population/www/socdemo/voting.html.

The Census Bureau projects that the voting-age population this year will be older than in 1996. The largest gains in any one segment of the population since 1996 will be in the 45- to 64-year-old age group (a 7 percent increase). This reflects the aging of the "Baby Boomer" generation, those born between 1946 and 1964.

"Since 1990, about three-quarters of the growth in the voting age population has occurred in the 45- to 64-year-old group," said Jennifer Day, the report's author. "By November 1998, this group is projected to include 58 million people or almost 3 in 10 of the voting age population."

The size of the 65-and-over population, who usually have high rates of voter participation, is expected to remain nearly the same as in 1996, at 34 million. They will comprise 17 percent of the voting-age population, about a 1 percent increase since the last election.

Although the voting-age population will be grayer, those who are 25 to 44 years old will still comprise the largest segment of the voting-age population (40 percent, or 83 million people). Meanwhile, the number of 18- to 24-year-olds is projected to increase to 25 million, or 13 percent of the voting-age population, reversing a decline that dates from 1981.

Other highlights include:

• Women will represent 52 percent of the voting-age population, outnumbering men by 7 million. Th in all voting for ages 18 number of n greater than

Nebo loop and Wolf Creek Pass road acc to be improved, up

Senator Bob Bennett (R-Utah) announced today $3.6 million grant coming to Utah from the United States Department of Transportation (USDOT) for the development of the Wolf Creek Pass Road in Wasatch County and various scenic highway projects including the Nebo Loop.

"Payson and Nephi, along with U.S. Forest Service, has been working very hard to develop the Nebo Loop Scenic Byway in recent years," said Bennett. "This money will help further those development efforts."

The Wolf Creek Pass Road in Wasatch County will receive $3 million to imp range and graz ber locations, e ment sites, and tivities within t tional Forest. T project will re mately $441,000 entation kiosks materials, inte with restrooms looks with inte and a rest area. grants included the developme management pl Canyon, Mirro tington Canyon/ Ogden River and Scenic Byways.
