To: "Madsen, Karin" <kmadsen@coalsource.com>, "Steab, Suzanne" <suzannesteab@utah.gov>

That's fine Karin. As long as there is no subsidence and limited disturbance at the facilities, there is no need to survey. Please resume surveys when reclamation is initiated at the surface facilities and survey a 1/2 mile buffer of the disturbance area.

Thanks,

Lisa Reinhart

Due to the mine being inactive, and there being no evidence of subsidence, we would like stop raptor surveying until a time when mining starts up again, or we begin final reclamation, as per the MRP.
