Purpose of Inspection: Routine annual Inspection. This site was inspected as a large mine site on 05/20/2009 by Brett Gregory

Inspection Summary: Overall Mine site is well kept and organized. Pit is to be back filled as per the Operators NOI. Every effort should be made to salvage top soil from the site prior to mining.

Photos were taken to document site conditions.

Conclusions and Recommendations: Permit NOI needs to be finalized. Weeds need to be controlled. Operator has 30 days to comply with all local, state and federal rules. Operator should consider amending fines stockpile and utilizing for growth medium. OGM to continue annual inspections and monitor the site when in the area.
