October 25, 1988

TO: John Whitehead, Permit Supervisor

FROM: Richard V. Smith, Geologist RVS

RE: 1988 Subsidence Survey Submittal, Western States Minerals, J. B. King Mine, INA/015/002, Folder #2, Emery County, Utah

The vertical movement data submitted September 19, 1988 incorporate measurements from 10 stations and are in accord with commitments in the approved Permit Application Package.

Measurements indicate maximum subsidence since 1982 to be approximately 10 feet. Since 1986, the area above the workings appears to have stabilized with less than one foot of movement being documented.
