Dear Mr. Tetting:

During my visit to your office on March 9, 1983, at which Valley Camp's response to the final Apparent Completeness Review Comments was delivered, it was noticed that Revision 3 of Reclamation Map D-1 (Dwg. No. D4-0044) did not have the detail of the 42" CMP inlet shown on it. This oversight has now been corrected.

Please find enclosed ten (10) copies of said map with detail section shown. The map retains the same revision number, and is being sent as a replacement of those same maps delivered to your office.

If you have any questions, please contact me.

Sincerely,

T. G. Whiteside
Chief Engineer
