Re: Plan Clean-Up, Western States Minerals Corporation, J.B. King Mine, ACT/015/002-95C, Folder #2, Emery County, Utah

Analysis and Findings

The above noted amendment removes portions of the operational phase of mining from the permit. The site was reclaimed in 1996 and was not mined for several years prior to reclamation. A reclamation only permit is issued to this mine. The map and text to be removed from the permit as described in the form, Application for Permit Change Detailed Schedule of Changes to the Permit, are no longer needed and will be archived if future reference is desired.
