Inspection Memo
to Coal File:

RE: Huntington #4
Swisher Coal Company
ACT/015/004
Emery County, Utah

The above mentioned operation was given a partial inspection on December 10, 1979 by Mike Thompson and Joe Helfrich from the State Division of Oil, Gas and Mining. State personnel were accompanied by Dan Guy, Chief Mining Engineer, for Swisher Coal Company.

The purpose of the trip was to inspect and approve the completed sediment ponds and flexible culvert extensions. Two sediment ponds have been constructed on the mine site adjacent to the Forest Service access road and the outslopes and surrounding areas re-seeded. Flexible culvert extensions have been attached to the culverts running underneath the main access road, the downslopes of the road have also been re-seeded. Mike Thompson approved these compliance measures.
