RE: N.P.D.E.S. Discharge Permit
No. UT-0022985
June 1983 Report

Dear Mr. Frenette:

Please find enclosed one (1) copy of the "Discharge Monitoring Report" for June, 1983.

The TSS average is again high, but I believe it can be attributed to excessive surface runoff. This condition should be greatly improved for the July report.

If you have any questions which I can answer for you, please contact me.

Sincerely,

T. G. Whiteside
Chief Engineer
