Re: N.P.D.E.S. Discharge Permit  
No. UT-0022985  
July 1983 Report

ACT/007/001 #9

Dear Mr. Frenette:

Please find enclosed one (1) copy of the "Discharge Monitoring Report" for July, 1983.

The TSS are continuing to be high as a result of a continued large quantity of mine discharge. However, analyses already received from some of the August samples indicate a noticeable improvement for this parameter.

Please contact me if you have questions.

Sincerely,

T. G. Whiteside  
Chief Engineer
