Re: N.P.D.E.S. Discharge Permit
No. UT-0022985
October, 1983

Dear Mr. Frenette:

Please find enclosed one (1) copy of the "Discharge Monitoring Report" for October, 1983.

All discharge for this period was from the No. 4 Sediment Pond.

Included in this report is an analysis for September, which came in after that month's report was submitted. The TSS on this particular analysis was 85.0 on a flow of 65 GPM and resulted in the TSS for October exceeding the allowable limit.

Please call me if you have questions concerning the enclosed.

Sincerely,

T. G. Whiteside
Chief Engineer
